Participation Statement:

The British Mountaineering Council recognises that climbing and mountaineering are activities with a danger of personal injury or death. Participants in these activities should be aware of and accept these risks and be responsible for their own actions and involvement.

General Safety:

Your safety and that of other users of the centre is of paramount importance to us. At all times you should listen to and follow instructions provided by your instructor.

Additionally your group should:

- Exercise care, common sense and self-preservation at all times
- Be aware of other climbers around them and how their actions may affect them
- Stand well back from climbing surfaces unless they are belaying or spotting.
- Not stand directly under someone who is climbing
- Not distract people while they are climbing or belaying
- Not carry mobile phones or other objects that may fall and injure people below

Declaration of Fitness:

I certify that to the best of my knowledge, I do not suffer from a medical condition which might have the effect of making it more likely that I might be involved in an accident which could result in injury to myself or others.

Do those in your care suffer from a known medical condition(s) or allergy? It would be helpful if you could let us know of any particular procedure to follow in order to support them
